

## FOR IMMEDIATE RELEASE

July 27, 2020  
Alexandria, VA

We are pleased to announce that Chris Futrick has joined NuSource LLC as a Business Development Manager effective July 27, 2020. Chris brings 20+ years of experience and success in various aspects of the commercial nuclear power and decommissioning industry. His experience and broad perspectives leading small and large engineering and technology driven field services and equipment business, through progressive levels of responsibility and leadership, will complement NuSource's growth and relationships with our industry clients to ensure and deliver value to our customers. Chris is a proven, client centric leader with a commitment to deliver high-value solutions to global nuclear customers. His background, experience, leadership and relationships in the industry will help serve the customer base as NuSource enters its next phase of innovation and success. NuSource's President Mark Varno commented "We are excited to have Chris join our Business Development team to help better serve our customers and their needs. He is a great asset given his nuclear experience in offering innovative solutions to solve clients' issues for over 20 years."

About NuSource: Headquartered in Alexandria, VA, NuSource is joint venture between MPR Associates, Inc. and Gavial Holdings, Inc. and is an ASME N-Certificate holder. The company was developed to provide custom integrated engineering and manufacturing solutions to the commercial nuclear industry. We specialize in difficult-to-solve replacement solutions that are critical to plant operation and regulatory compliance. NuSource combines the resources of MPR Associates and Gavial Holdings to bring you more than 50 years of engineering experience and 35 years of manufacturing of solutions under the Nuclear Requirements of 10CFR50 Appendix B.
