

## FOR IMMEDIATE RELEASE

December 2, 2019  
Alexandria, VA

### ***Mark Varno appointed as NuSource President***

NuSource, LLC Board of Directors announced today that it has appointed Mark Varno as President effective immediately.

Mark brings to NuSource close to 40 years of experience and success in the commercial nuclear power industry. His insights from diverse perspectives leading an OEM services business, as a senior leader at operating nuclear power plants, and leading consulting companies will enable NuSource to increase value delivered to customers, as well as continue and accelerate its recent growth trajectory. Mark is a proven leader with a client centric approach and commitment to deliver high-value solutions to global nuclear customers. His background and longstanding relationships in the industry will help serve the customer base as NuSource enters its next phase of innovation and success.

Board Member Bob Coward said “We are fortunate and excited to have Mark join the NuSource team as its executive leader, he brings great industry perspective and business leadership to NuSource as we lead in re-imagining and re-defining the delivery of engineered hardware solutions for the nuclear industry’s important challenges and opportunities”.

#### About NuSource

Headquartered in Alexandria, VA, NuSource is joint venture between MPR Associates, Inc. and Gavial Holdings, Inc. and is an ASME N-Certificate holder. The company was developed to provide custom integrated engineering and manufacturing solutions to the commercial nuclear industry. We specialize in difficult-to-solve replacement solutions that are critical to plant operation and regulatory compliance. NuSource combines the resources of MPR Associates and Gavial Holdings to bring you more than 50 years of engineering experience and 35 years of manufacturing of solutions under the Nuclear Requirements of 10CFR50 Appendix B.
