

# “LIKE-FOR-LIKE” IN FORM, FIT, AND FUNCTION

NuSource is the “Exclusive” supplier of American Standard and ITT replacement heat exchangers and spare parts to US nuclear power plants.

## “LIKE-FOR-LIKE” REPLACEMENTS

NuSource provides Safety Related and ASME Section III, American Standard replacement heat exchangers and parts.

Original design drawings  
Original calculations

OEM information enables us to provide replacements that are “like for like” in form, fit and function to the original equipment.

## EQUIPMENT UPGRADES

NuSource can prepare a new Certified Design Specification and supporting ASME Code and/or thermal performance calculations that demonstrate acceptability of replacement equipment with:

- Improved Materials
- Superior Corrosion Resistance
- Increased Thermal Performance

## EDG APPLICATIONS:

- Jacket Water Heat Exchanger
- Lube Oil Heat Exchanger
- Intercooler Heat Exchanger

### The NuSource Quality Assurance Program:

- ASME Section III “N” Stamp
- 10CFR50 Appendix B
- 10CFR 21
- ASME NQA-1
- ANSI N45.2
