

“LIKE-FOR-LIKE” IN FORM, FIT, AND FUNCTION

NuSource is the “Exclusive” supplier of American Standard and ITT replacement heat exchangers and spare parts to US nuclear power plants.

Standard **X**change

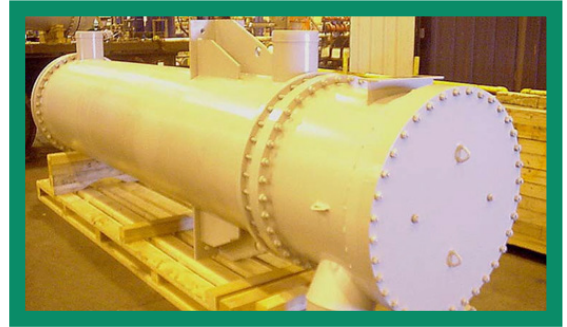

a xylem brand

Xylem/American Standard is a trademark of Xylem Inc. or one of its subsidiaries.

“LIKE-FOR-LIKE” REPLACEMENTS

NuSource provides Safety Related and ASME Section III, American Standard replacement heat exchangers and parts.

- Original Design Drawings
- Original Calculations

NUCLEAR APPLICATIONS:

EDG

- Lube Oil Coolers
- Jacket Water Coolers
- Intercoolers

Balance of Plant

- Steam Turbine Oil Cooler
- Gland Seal Condenser
- Spent Fuel Pool Cooler
- CCW / TBCCW

Skid Mounted Pump Coolers

- Charging Pump Oil Coolers
- Safety Injection Pump Oil Cooler
- Aux Feed Pump Oil Cooler

EQUIPMENT & MATERIAL UPGRADES

NuSource can prepare a new Certified Design Specification and supporting ASME Code and/or thermal performance calculations that demonstrate acceptability of replacement equipment with:

- Improved Materials
- Superior Corrosion Resistance
- Increased Thermal Performance

The NuSource Quality Assurance Program:

- ASME Section III “N” Stamp
- 10CFR50 Appendix B
- 10CFR 21
- ASME NQA-1
- ANSI N45.2
