NuSource and Swagelok Sign Exclusive Agreement to Supply ASME Code and Safety-Related Valves to Nuclear Industry

NuSource is pleased to announce that it has entered into a worldwide agreement with Swagelok to be the exclusive supplier of ASME Code and safety-related Swagelok ® valves to the commercial nuclear power industry. This agreement allows the nuclear industry to procure “like for like” replacement Swagelok valve components that meet all of the original design, quality, ASME Code and plant requirements

Under the agreement, NuSource will maintain overall Part 21 responsibility. Through this agreement, Swagelok will provide manufacturing, testing and NDE, while NuSource, will assume responsibility for the design, ASME Code and regulatory requirements, ANI inspections, and commercial grade dedication. All valves supplied will bear the Swagelok name and markings and will be backed by the Swagelok Limited Lifetime Warranty. ASME Code compliant valves will include a NuSource N-Stamp tag.

NuSource’s President Mark Varno commented, “We are excited to partner with Swagelok and look forward to delivering the industry quality components for their specific applications. This agreement serves as an example of NuSource’s commitment to providing value to the industry and using our unique capabilities to solve challenges for our clients”.

About NuSource

Headquartered in Alexandria, VA, NuSource is joint venture between MPR Associates, Inc. and Gavial Holdings, Inc. and is an ASME N-Certificate holder. The company was developed to provide custom integrated engineering and manufacturing solutions to the commercial nuclear industry. We specialize in difficult-to-solve replacement solutions that are critical to plant operation and regulatory compliance. NuSource combines the resources of MPR Associates and Gavial Holdings to bring you more than 50 years of engineering experience and 35 years of manufacturing of solutions under the Nuclear Requirements of 10CFR50 Appendix B.
