NEWS RELEASE

Xylem, Inc. is pleased to announce NuSource, LLC as its exclusive distributor of their Standard Xchange branded heat transfer products for commercial nuclear power plants. Effective October 3, 2013, NuSource will be the exclusive order entry point for all Standard Xchange heat exchanger products.

Xylem, formerly a division of ITT Corporation, maintains original design control and intellectual property rights for many well-known heat exchanger brands including **American Standard**, **ITT Standard** and **Kewaunee Ross**. NuSource now represents Xylem for the replacement of these brands for heat exchangers and parts within United States commercial nuclear plants.

American Standard, ITT Standards and Kewaunee Ross brands of exchangers are installed in most US plants and are found on many critical systems, including:

Sample - Primary System Applications	
Emergency Diesel Generator (Lube Oil, Jacket Water and Intercooler exchangers) RHR Pump Oil Coolers	Safety Injection Pump Oil Coolers Charging Pump Oil Coolers Feedwater Pump Gear Oil Coolers
Sample - Balance of Plant Applications	
Spent Fuel Pool Heat Exchangers (CCW) Closed Circuit Water Heat Exchangers Hydraulic Drive Gear Oil Coolers	Steam Turbine Oil Coolers Gland Steam Condensers Vacuum Pump Seal Water Coolers

NuSource LLC is an accredited ASME N-Certificate holder delivering integrated engineering and manufacturing solutions to the commercial nuclear power industry. With comprehensive engineering and manufacturing resources, NuSource will provide Xylem and its customers with technical sales and engineering support as it relates to customer specifications, plant design and licensing requirements.

Xylem and NuSource are committed to supplying the nuclear industry with OEM or qualified replacement products and spare parts. This letter serves as notification that effective October 3, 2013 commercial nuclear power plants in the United States should ensure that NuSource is the exclusive "Order Entry Point" for heat exchangers and on its "Approved Suppliers List" for Xylem, American Standard, ITT Standard and Kewaunee Ross heat exchangers, including ASME Section III, Section VIII, Safety Related and Non-Safety exchangers.
